The document contains a draft list of screens and functionality, which will be used in BulbaTalk app.
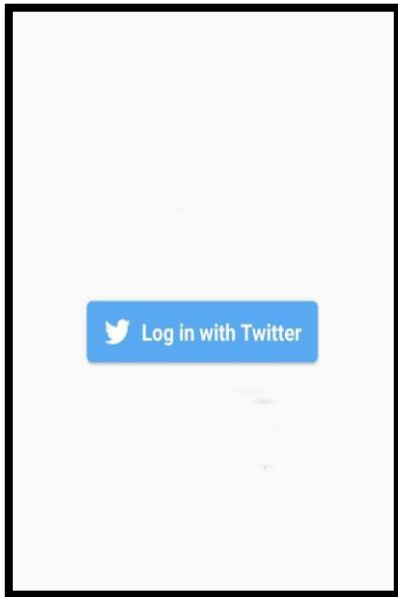

The screens were used from the Twitter app and most of them were modified. The original versions of the screens are given at the end of the document.

Launch

TBD: the team is deciding which logo to create.

Start-up screen displaying a BulbaTalk logo.

Authorization

Allows an authorized Twitter User to access to his private account.
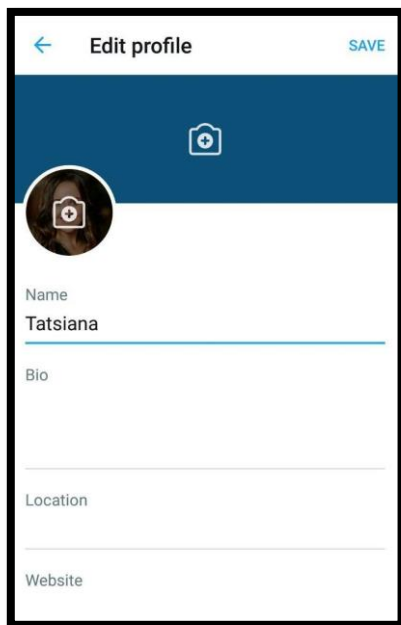

Profile

Contains information about User e.g.:
- account name;
- @name (an unique identification of account);
- day of registration in app.

User has an access to thumbnail presentation of all his Tweets and can open the desired Tweet. Also, the User could add a new Tweet by tapping on the button «Tweet»

From here User can navigate to the settings of his Profile and to the list of Following/Followers.

Edit profile

Allows to load a header/profile photo and to change personal information.

Following/Followers

Displays the list of Following/Followers.

In these screens User could search an interesting account and follow/unfollow selected account by tapping on the button «Following».

Follow profile

Contains personal information of Twitter User (the same information like in the Profile screen).

Allows follow/unfollow this account by tapping on the button «Following».
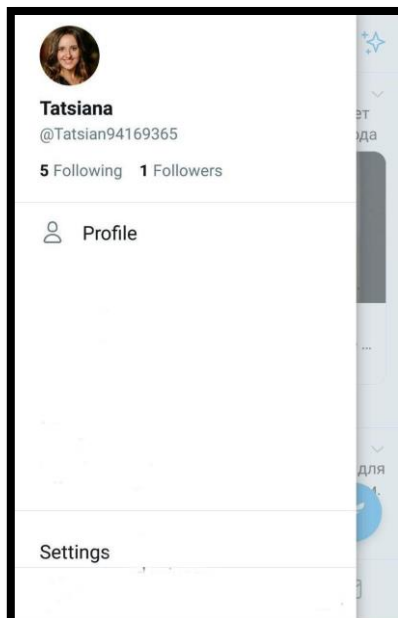

List of Tweets

Displays a list of Tweets from accounts User has chosen to follow on.
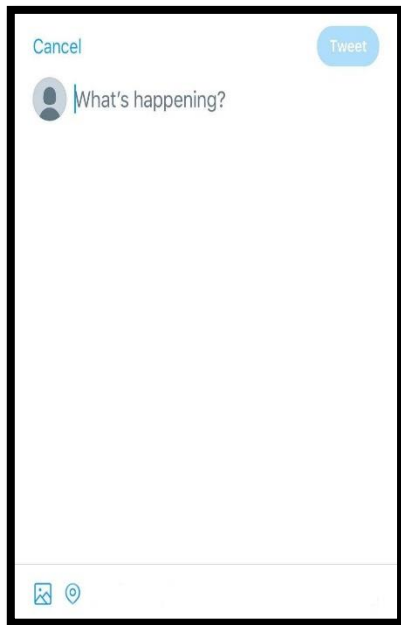

In this screen User could:
1. Scroll Tweets.
2. Comment, retweet and like a Tweet.
3. Add a new Tweet by tapping on the button «Tweet».
4. Go up the list by clicking on the Home icon.
5. Go to the Search screen.
6. Open the sidebar menu by clicking on the User's photo or by swiping the screen from left to right.
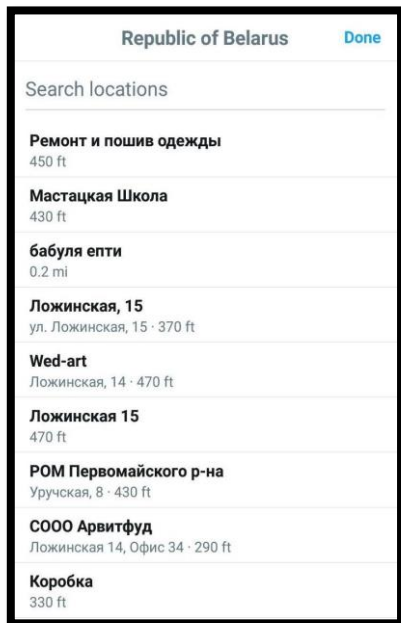

Sidebar menu

From here User can navigate to the Profile, to the list of Following/Followers and to the settings of his account.

Tweet

Allows to create a new Tweet by entering a message (up to 280 characters) and to add an image or a location.

Location

Displays the current location of User and allows to search a required address.
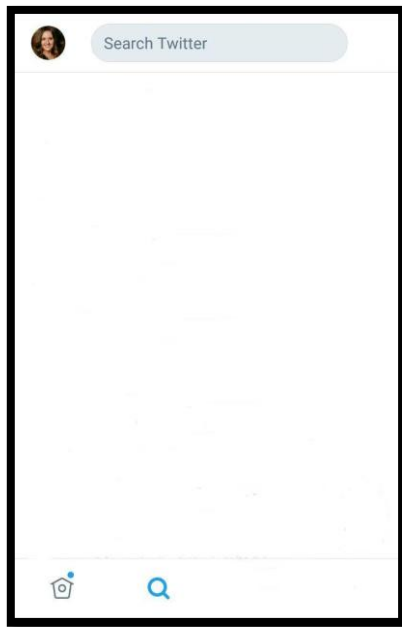

Selected Tweet

Displays selected Tweet.

User could comment, retweet and like a selected Tweet.

Search

Contains the search box at the top of the page in which the User could enter his search query. Results will show a combination of Tweets, accounts.

From here the User can navigate to the Twitter timeline.

Seetings

TBD: the team is thinking about a screen layout.

Allows to change a language and to log out of app.
